Bring A Friend 2009

Frequently Asked Questions....

Q: Do "Friends" who attend a meeting need to have their parents sign a Hold Harmless Agreement?

A: "Friends" can attend regular meetings for up to two nights without having to sign the Hold Harmless Agreement. However, they should register on or before their third night. "Friends" are not permitted to attend camps/outings until they have become a registered member.

Q: How much is youth registration if they join half way through the year?

A: In response to the current economic conditions Scouts Canada - Southwestern Ontario serving Tri-Shores and Battlefields will be offering a one time deal for this campaign of \$75.00 for both youth and adult members.

Q: If a youth joins in the middle of the year, will they be behind in the program?

A: No. They don't have to "catch up". They can start from where your section is. If they want to complete items at home, they can. Remember to be flexible.

Q: I am very busy and we already have our program planned out for the year.

A: Just about everything is already done for you! Invitations, letters, program ideas have already been created and personalized for this event.

Q: The numbers in our section are just fine. Our challenge is leadership and volunteers; why should we participate?

A: Think of the event as your door opener to recruit additional leaders from that friend you always thought would make a great leader. Another opportunity arises from the additional youth brought into your section, new parents with new energy and ideas to offer. *Bring a Friend 2009* is not exclusive to youth; all leaders are encouraged to participate. Word of mouth is truly the best way to promote our programs.

Q: What's in it for my section, youth and leaders?

A: Each youth and leader who brings a friend will receive a *Bring a Friend 2009* crest, which they can sew onto their campfire blanket or simply add to their collection. Leaders can purchase crests at their local Scout Shop.
