## IMPORTANT INFORMATION FOR CONSUMERS AND COUNCILS

### Re: Trail's End® 340g Chocolatey Peanut Clusters – Recall Notice

**March 20, 2009** – In February, the Peanut Corporation of America (PCA) recalled all peanut products produced in their Blakely, Georgia facility since January 1, 2007. That recall did not impact any Canadian products distributed by Trail's End.

The FDA has now expanded PCA's recall to also include all peanut products produced in PCA's Plainview Texas facility since January 1, 2007.

Weaver Popcorn Company (Weaver), the company that produces Trail's End products, stresses that it has not received a single health related or illness complaint related to this product. Nonetheless it is complying with the FDA's request that products with peanuts from the PCA Texas plant be voluntarily recalled as a precaution.

As a result, Weaver has issued a precautionary voluntary recall on its **Trail's End® 340g Chocolatey Peanut Clusters** which is one of five separately packaged products in the Trail's End Chocolate Lovers Tin package (copy of packaging image attached). The remaining four separately packaged products are not subject to any recall.

Weaver has been in direct contact with each council and is asking all consumers to: 1) destroy all opened 340g bags and 2) return any unopened 340g bags for a refund.

**Weaver has set up a toll-free number at 1-800-782-4255 to answer any questions from group leaders or consumers regarding Trail's End 340g Chocolatey Peanut Clusters. Please direct all calls to this number.**

We are also attaching a copy of Weaver's March 13<sup>th</sup> press release for your information and release to your group leaders.

**Any media calls on this matter should be directed to Lisa Nowlan in the National Office at (613) 224-5134 ext. 271.**
